

Please write an answer to the following question:

What is the impact of national health emergencies caused by viruses?

Try and use three sources of information to support your answer. These can be books/ websites/articles/newspapers. Please feel free to use more than three sources if you would like; just make sure to write down each one in the sources box provided overleaf.

In your answer think about:

- What is the name of a viral pandemic/epidemic?
- Which country/countries were affected by this health emergency?
- What was the death toll?
- What was the impact of the virus on members of the public?
- What were the similarities of people's response to the virus?
- What were the differences of people's response to the virus? What might be some of the reasons for these?
- What did people learn from the national health emergency?
- Do all countries manage health emergencies in the same way? How can their approaches differ?
